

Title: School

Author: nijal

My school is one of the most important place in my life. It is where I go everyday to learn new things and meet my freinds. My school is big and it have many classrooms, a library, a playgroud and a computer lab. The teachers in my school is very kind and they always try to help the students.

I like my school because it gives me knowledge and also teaches me good mannars. Every morning we stand in a line for the assembly and sing the national song. Sometimes, we feels bored in the class but still we have to listen to the teachers. My favorite subject are English and Social studies because they are interessting.

My school also organize many programs like sports day, quiz contest and cultural shows. I enjoy taking part in these activites with my classmates. During sports day, we play games like football, race and long jump. It makes us feel active and happy.

In conclusion, my school is very special for me and I will never forget the time I spent there. It help me to become a better person and show me the right path in life.
